

LET OUR PARENTS TELL YOU ABOUT THEIR EXPERIENCES WITH ACC:

"ACC exceeded my expectations. Every parent should consider it as an after school enrichment option! My son pleads to go on days he is not even signed up and asks me to pick him up late! The atmosphere was perfect for nurturing his growth; it's wonderful to see how many friendships he has there. The staff is very professional, genuine and attentive; both the parents and children just adore them. ACC keeps activities fresh daily while also providing the children time to do whatever type of enrichment they like best, such as sports, Legos, games or arts and crafts. I don't know what I would do without ACC!"

"We used to receive after school care elsewhere or through our babysitter. But no more! Nothing compares to the quality of care that ACC provides-and my children choose it above all other options!"

"I love that when my children are going to ACC, I can focus on my work and other responsibilities without ever being concerned that they are not being given the best care and attention possible, by the most capable people that I know. Thank you!"

"Their staff is very professional, friendly and responsible. The program offers a variety of activities for children including games and sports, as well as assistance for their homework. I highly recommend this program to any parent and their children."

"After the first few weeks of school I asked my son about his favorite part of Kindergarten and Coman Hill. He said, Armonk Children's Corner. When asked the same question towards the end of school he had the same response! Thanks ACC!!!"

"Our son loves Armonk Children's Corner and so do we! The program is enriching and fun for him, the staff amazing. It has been a constant trustworthy and dependable resource for us over the past three years whether we needed the service or just wanted our son to experience the program."

"One day my son got an invitation to join one of his friends as a guest at Children's Corner. That's all it took. He enjoys every minute of his time there. As a mother who didn't think her son would get anything out of it, I couldn't have been more wrong. The staff is built of caring, creative women that know how to cater to every child's needs. So thank you Children's Corner for providing a great after school program that is both educational and entertaining for our children."

"Children's Corner could not have been a better experience for us. My son loved it so much that most days it was a struggle to get him to leave when I came to pick him up. As a working mom, Children's Corner has been a blessing and the staff is exceptional, offering me such piece of mind."

"My son went to Children's Corner on a play date and although I have a full time nanny he enjoyed it so much I signed him up so he could be with the other children. It was a great experience. The best part was no video games or TV. The program was well run and fun with a lot of fun things to do. Great program."

Thank you for filling a niche-providing early morning child care, so my husband and I can catch our train to Manhattan on time. There is never a complaint from my son when it is time to be dropped off."
